

# Outfit your Rhino with accessories from Essex Manufacturing!

**Essex Manufacturing** offers quality accessories for the Yamaha Rhino. Designed with durability and long life in mind, our accessories stand out in the industry because of their reliability, ease-of-installation, and effectiveness. From Hardtops, to Windshields, to Kevlar-Belted Run-Flat Tires we can take you where you want to go safely... *and bring you back.*

## Rhino Steel Hardtops

Our **Steel Hardtop** features a sun visor, rear panel and drip rails to keep out the weather. It's finished with a durable powder coat.

Installation is easy and can be accomplished in minutes. The strong mounting system has four clamps securing it to the frame tubing. It is safe to trailer at normal highway speeds.

## Plastic Windshields

Our durable **"Snap-On" Plastic Windshields** are a quick and easy way to add front protection to your Rhino. The Snap-On system attaches the windshield to the frame of the vehicle, making a clean, finished look that is safe to trailer at normal highway speeds unlike other plastic windshields.

See reverse for our unique **Glass-Lift Windshield** →

## Essex's unique Lift-Glass Windshield

Essex's unique **Lift-Glass Windshield** is made with tempered Automotive Safety Glass and opens easily to allow for circulation. Our custom molded gasket fits between the hood and dash to provide a tight weather seal.

Our one-of-a-kind "Snap-On" Sleeves hold the panel in place without fasteners. Installation is simple and takes only minutes, without tools! There are no holes to weaken the plastic panel, and no clamps or fasteners to break or get lost.

Drive with your windshield up or down and unlike other windshields, ours can be towed at normal highway speeds.

Electric Wiper kit is also available.

Over 25,000 tires in service over the last eight years, Essex SureFoot's stand alone in the heavy UTV industry. Our Kevlar-Belting resists punctures that are so common to other UTV tires and our Reinforced Sidewalls and tough "Stubbleguard" Rubber provide stability, load ratings over 1100lbs per tire, Run-Flat Performance, and longer tread life. These unique features set our tires apart from the rest. Three sizes available: 25", 26", & 27".

Essex offers a variety of lighting options for your Rhino. Our **Visor Lightbar** features 3 bright Halogen Lamps, the **Bed Lights** are also Halogen, our roof-mounted 245,000 Candle Power **Spotlight** is controllable from inside the cab, and our **Domelight** mounts easily to the underside of our Hardtop.

A 200 Watt, 4-Channel Stereo CD/MP3 Player with a credit card sized remote is also available from Essex, dual 3-Way Speakers are also included as well as a mounting kit. Easily mounts to most tops.
